

MILOŠ PETKOVIĆ

Senior Program Manager @ Microsoft

@ milos.fon@gmail.com <https://milos-petkovic.vercel.app/> 📍 Serbia

SUMMARY

As a Senior Product Manager with 9 years of experience, I have had the privilege of working at industry-leading companies like SAP and Microsoft. At SAP, I scaled a B2B Sales automation software, earning its place in Gartner's Magic Quadrant as a leading solution. More recently, at Microsoft, I contributed to the Bing Maps Data team, enhancing LLM and Crowdsourcing initiatives to ensure the most up-to-date map data.

I'm all about making tech work for people. There's something incredibly satisfying about seeing a piece of technology you worked on making someone's day a bit easier. I'm also really into AI and love exploring how it can drive innovation and efficiency.

EXPERIENCE

Senior Product Manager @ Windows AI

Microsoft
📅 10/2024 - Present 📍 Belgrade, Serbia

Working within the Applied Sciences Group (ASG), I help ensure the right Small and Large Language Models are delivered to power Windows experiences like Recall, Click to Do, Settings Agent, Paint Co-creator, and more. I collaborate across multiple teams to align NPU-optimized models with evolving feature needs and system dependencies.

Senior Product Manager @ Bing Maps

Microsoft
📅 03/2022 - 10/2024 📍 Belgrade, Serbia

In my role on the Bing Maps team, I spearheaded efforts as a Data/Platform PM to address and rectify gaps in our map data flagged by Microsoft services. I managed a Crowdsourcing platform that streamlined the process—from identifying data gaps to efficiently collecting data through Gig-workers and LLMs.

Senior Product Manager

SAP
📅 08/2019 - 03/2022 📍 Belgrade, Serbia

As a SAP CPQ Senior Product Manager at SAP, I successfully managed integrations within SAP ERP and Front-office apps. This involved leading cross-functional teams, implementing innovative solutions, and collaborating with stakeholders to drive product improvements. My efforts resulted in streamlined processes, enhanced user experience, and increased efficiency.

CPQ Product Manager

CallidusCloud
📅 09/2017 - 09/2019 📍 Belgrade, Serbia

In my role as a CPQ Product Manager at CallidusCloud, I was responsible for executing the CPQ roadmap to enable seamless integration with SAP B2B landscape.

KEY ACHIEVEMENTS

- Lead SAP CPQ to MQ leading solution**
Played a key role in integrating SAP CPQ into S4HANA Sales Cloud, contributing to its recognition as a top-rated solution in Gartner's review
- Enhancing Map Data**
Managed Crowdsourcing platform for continuous improvement of Bing Maps data
- AI Implementation Success**
Worked on [Introducing Mu language model](#) and how it enabled the agent in [Windows Settings](#) | [Windows Experience Blog](#)
